extent the Mann liquor bill, enacted into Assembly, will figure in the legislative elections in many parts of the State this fell comes from Danville. A gentleman elections in many parts of the State this foll comes from Danville. A gentleman from that city last night stated that the prohibition element and those in Danville and Pittsylvania county favorable to the perpetuation of the Mann law have decided to make a contest for the four seas in the assembly from that city and county.

Danville, it will be remembered, recently Danville, it will be remembered, recently went "dry" in a license or no-license election, and strenuous efforts are being made there, not to enforce the law, but even to crush out the social clubs, which many contend are but means of evasion of the law. The majority, while not large, was substantial, and the advocates of prohibition have been particularly active in supporting the action taken by the needle.

was substantial, and the advocates of prohibition have been particularly active in supporting the action taken by the people.

INDEPENDENT TICKET.

Out of this vigilance of the prohibition element, both in and out of the Democratic party in that city, has grown a movement to place a ticket in the field for the three members of the House and a Senator to be chosen in November. The Democratis of the district have nominated Major George T. Rison, of Chatham, for the Senate, and Messrs. J. W. Bruce, Gregory and Pannill for the House of Delegates. According to the slory, all these gentlemen are alleged to be hostile to the Mann bill, which amounts to practical prohibition in the rural sections. This alleged attitude of these gentlemen is the reason assigned for a movement to nominate what is to be known as a Citizens' ticket, and the calling of a convention for the purpose. The convention has been called to meet at Chatham, the county seal, next Saturday, and it is predicted this body will nominate a full legislative ticket. It is, to say the least, an interesting, not to say significant coincidence, that the Republicans of city and county are to meet at the very same place on the self-same day. No authoritative statement can be had that a fusion of Republicans and Prohibitionists is contemplated, and on the other hand, at least one Republican of promince is quoted as saying that there will be no such fusion.

NO LIQUOR ISSUE.

NO CHANGE IN THE TREATY

Bogota Government Must Ratify it as it is if Colombia Wants the Isthmian Canal-Unrest on the

Isthmus.

(By Associated Press.)

WASHINGTON, September 7.—The State Department to-day received a routine message from Mr. Beaupre, the American consul at Bogota, acknowledging the receipt of Secretary Hay's cablegram of August 26th, stating that the Washington government would enter into no engagement which would hamper the President's freedom of action under the law. This was all that the cablegram stated, though it had been the basis for speculative reports about Mr. Beaupre's ideas of the Bogota situation.

The State Department's attitude is one of dignified patience. No indication of its course of action in the event that the Cojombian Congress rejects or amendate treaty will be forthcoming until the time for the exchange of ratifications expires. September 22d.

It is known at the Department that the Colombian Congress already is regretting its heaty action' in rejecting the treaty, but the State Department will suggest no remedy for the emistake. Once and for all the State Department has announced that the treaty as approved by the Washington government was ratified by the American Senate. The Bogota government must ratify that identical treaty if Colombia desires an Isthmian canal. The State Department regards all reports as to the connection of this government or even its interests with the unrest on the Isthmus as too trivial for consideration. Dr. Herran, the Colombian charge, indignantly scouts the idea that the United States would lend itself to the encouragement of this unrest.

INDIANAPOLIS, IND., Sept. 7.—The Labor Day parade to-day was the largest over seen in Indianapolis, over two hours being required to pass. The address of the day was delivered this evening by Samuel Gompers, prosident of the American Federation of Labor.

President Gompers devoted some of his remarks to President D. M. Parry, of the National Manufacturers' Association. He said Mr. Parry had constituted himself as the Saviour of society and civilization. His references to Mr. Parry were from the standpoint of ridicule. Said he in closing: "A strike may bring strife and discord, but as soon as it is over better feelings are engendered and mutual respect is brought about. I don't blink I would care to have a strike in Mr. Parry's factory, but I don't believe it would per an ulmitsed evil, for he might learn the lesson that Mr. Beer has learned—that there is something to arbitrate, to discuss, to concede.

"Organized labor has no feeling against Mr. Parry. It has no designs against his life; his children or the safety of his president Rosevelt."
